

Project Design Phase-I
Proposed Solution Template

Date	25 September 2022
Team ID	PNT2022TMID47370
Project Name	IOT based smart gadgets for child's safety and monitoring
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	<ul style="list-style-type: none">● Monitoring children using IoT● Finding the difficulty in child safety● Making this using IoT
2.	Idea / Solution description	<ul style="list-style-type: none">● System that we built for monitoring the children.● Using the help of sensors we are monitoring child's activity when they are away from parents.● Ensuring child's protection in all aspects.
3.	Novelty / Uniqueness	<ul style="list-style-type: none">● Intelligent data collection.● Sensors installed on IoT devices are able to ensure child's safety to the parents.● Smart gadgets monitoring.
4.	Social Impact / Customer Satisfaction	<ul style="list-style-type: none">● Parents can be rest assured.● Results in a reduction of parents being worried
5.	Business Model (Revenue Model)	<ul style="list-style-type: none">● IOT child's safety project will be solved worldwide through Amazon, flipkart etc..● Day by Day case in children kidnapping or accident can reduced using this project
6.	Scalability of the Solution	<ul style="list-style-type: none">● Better child's protection and parents can be less worried of their child.

		<ul style="list-style-type: none">● It helps the children be free in his way despite staying in the home under parents vision.● With higher vision on safety gadget parents can be more confident on their child's protection .
